Hi Sharon

Good to hear from you. I trust you and your family are safe and well.

Apologies for the confusion.

The barn is going to be connected to a new treatment plant which will be sited where it is shown as a new septic tank on the submitted drawing. If you or NRW have any concerns please get back to me and we will address them.

Thanks.

Rob

I am in the process of reviewing the Knolton Farm proposal and just have a query with regards to the foul drainage. On the application form it is stated that it is proposed to connect to the existing private treatment plant. However, the proposed layout shows the location of a new septic tank. Can the applicants confirm which method is to be used?

Kind regards,

Siôn
