Does your proposal involve the construction of a new building which would result in the loss or gain of public open space?

◯ Yes
⊘ No

Description of the Proposal

Description

Please describe the proposed development including any change of use

The aspiration for Maurice bar is to open a relaxed, social, communal bar located in Wrexham City centre, housed within a Grade II listed building which is next door to Thaidine which has recently opened. One of the partners within Maurice bar is also partner in Thaidine and owner of the building. We believe that having a bar next door will complement Thaidine by accommodating their Customers before and after meals but also draw more people into that area.
The bar will be offering small side plates to be brought over from next door which is Thai cuisine. The bar will be closed by 12pm and not play live music. We are hoping to have a relaxed disco/80s music playing with some seating and drinks. The outside area to the back of the building will also be utilised with a tent cover, heaters and some possible entertainment such as ping pong tables or shuttleboards.
Our main aim is to complement next door and target the already very busy flow of people attending for food.

Has the work or change of use already started?

◯ Yes
⊘ No

Existing Use

Please describe the current use of the site

It has been a number of things over the years, it was a brewery site, gentlemens club, army shop and more recently a shop.

From 7 January 2019, all new developments of more than 1 dwelling house or where the construction area is 100 square metres or more, require Sustainable Drainage Systems (SuDS) for surface water designed and built in accordance with the Welsh Ministers' Statutory SuDS Standards. SuDS Schemes must be approved by your local authority acting in its SuDS Approving Body (SAB) role. Please contact your local authority for details of how to apply.

How will surface water be disposed of?

☐ Sustainable drainage system

☐ Existing water course

☐ Soakaway

☐ Main sewer

☐ Pond/lake

Biodiversity and Geological Conservation

To assist in answering the following questions refer to the help text. The help text provides further information on when there is a reasonable likelihood that any important biodiversity or geological conservation features may be present or nearby and whether they are likely to be affected by your proposals.
