PONTCYSYLLTE AQUEDUCT STEPS
LANDSCAPE STATEMENT - VIEWPOINTS

VIEWPOINT 1

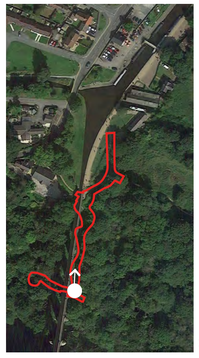

View from Trevor Basin approximately 50m north of the Site.
The steep embankment topography and intervening vegetation screens most of the Site. A very small area of the Site's northern entrance would be visible before the land falls away.

VIEWPOINT 2

View from where public footpaths LLA/35 / Dee Way and LLA/34 meet (located within the Site).
Direct views from the public footpath.

LANDSCAPE STATEMENT - VIEWPOINTS

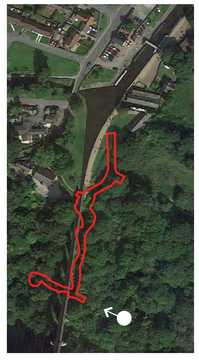

VIEWPOINT 3

View from public footpath LLA/34 approximately 10m east of the Site
Direct views of the Site from short section of public footpath.

VIEWPOINT 4

View from public footpath LLA/34 / Dee Way approximately 30m east of the Site.
Due to intervening vegetation and curvature of the riverside, perceptibility of the Site reduces along the public footpath.

LANDSCAPE STATEMENT - VIEWPOINTS

VIEWPOINT 5

View from aqueduct towpath / NCR 84 immediately adjacent to Site.
Site slightly perceptible in views directly north along the towpath and visible in views looking downwards over the railings. Wooded embankment would provide some screening of the Site.

VIEWPOINT 6

View from Cysylltau Bridge / Gate Road approximately 250m west of the Site.
Site not visible due to intervening woodland and embankment topography.
