- Grade II*
- Grade II

Low Visibility (up to 1 origin point)

High Visibility (up to 19 origin points)

N

0 250 500 1,000 1,500 m

Scale at A3: 1:35,000

Notes:

ZTV compiled assuming observer height as 1.7 m at eye level, and takes into account screening effects of local settlements at 9m and existing vegetation / woodland at a height of 10m.
24 origin points, from within the Application Site, have been used to illustrate the full parameters of the proposed development. Including:

- 23 origin points (in total), set at 3m above existing ground level (EGL), within the centre of each of the fields of the Application Site containing solar panels; and,
- 1 origin point, set at 3 m EGL, at the approxmate highest point within the Application Site.

OS Terrain 5 data has been used for generating the ground model.
