Date Received 08/07/2024

Decision Date 16/10/2024

2. The tree works hereby approved shall be commenced within one year of consent being granted.

3. The removed trees shall be replaced with native broadleaf species (Stem Girth 12-14cm) [. The replacement trees shall be planted during the next available planting season (November 2024 – March 2025. Details of the method and materials used for planting of the replacement tree(s) and a maintenance schedule for a minimum of two years shall be submitted to and be approved by the Local Planning Authority prior to the planting of the replacement tree(s). If the replacement trees are removed, dies, become severely damaged or diseased, or are in poor physiological condition within five years of the date of planting they shall be replaced by trees of the same species and stock size of tree to those originally planted.

Reason(s)

1 To preserve the health, safety and amenity value of the tree(s) in accordance with Policies DM1, SP12, SP14 and NE3 of the Wrexham Local Development Plan.

2 To ensure the work is completed within a reasonable time scale in accordance with Policy DM1 of the Wrexham Local Development Plan.

3 To ensure a satisfactory standard of appearance of the development in the interests of the visual amenities of the area in accordance with Policies DM1, SP12 and SP14 of the Wrexham Local Development Plan.

Note(s) to applicant

Owner authorisation: Please be advised that this Decision Notice does in no way provide the applicant / agent with authorisation to enter onto land or property belonging to another person(s) in order to undertake proposed works. Should the applicant / agent wish to gain access onto land belonging to another party then authorisation must be received from the owner of that land prior to undertaking the

agreed works. Failure to receive such authorisation from the owner may leave the applicant / agent liable to prosecution.
Bird nesting/breeding season: All wild birds, their young, their eggs and active nests are protected under law. It is an offence to damage a nest intentionally while it is in use or even being built. Non-urgent tree work involving tree removal/pruning and hedge cutting operations should, if possible be avoided during the bird nesting/breeding season. If necessary, then applicants and contractors are advised to take all reasonable precautions in assessing vegetation prior to undertaking works and must cease operations if at any time a nest is then discovered. Advice from the RSPB indicates the bird nesting season to be from the beginning of March to the end of August however, depending on seasonal temperatures, some birds do continue breeding into September.

Bats: All bats and their roosts are strictly protected by law. Deliberately capturing, disturbing, injuring and killing bats is prohibited. Damaging or destroying their roosts is also prohibited.
Where bats are suspected to be present, please seek advice from a qualified arboriculturalist or a licensed bat specialist and if appropriate, get the relevant licence/s before you carry out any major tree work or hedge cutting.
