14/08/2024	Compliance Visit 1	Visual search of construction site by ecologist and check of stored materials. Temporary protection fence remains in place. GCN RAMs Method Statement, Biosecurity Risk Assessment & Toolbox Talk documents available in site cabin.	Photos. Implementation log updated.	None.	TK	David Hughes (Site Manager), all site contractors.
28/08/2024	Compliance Visit 2	Visual search of construction site by ecologist and check of stored materials. Temporary protection fence remains in place. GCN RAMs Method Statement, Biosecurity Risk Assessment & Toolbox Talk documents available in site cabin. Most of stored materials as per Method Statement requirements. There was a small amount of loose cardboard sheets and plastic wrapping on the ground in the storage area due to recent strong winds. These were checked for GCNs - none found. Site Manager advised that this waste material should be cleared away to avoid creating features of potential value for newts.	Photos. Implementation log updated.	None.	TK	David Hughes (Site Manager), all site contractors.
