

Large-Scale National Grid Data

Published 1993 - 1994

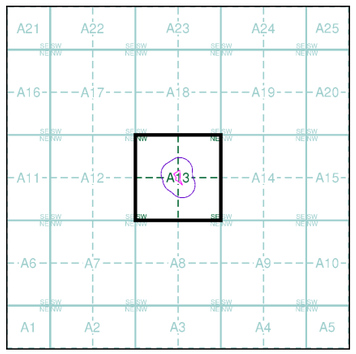

Source map scale - 1:2,500

'Large Scale National Grid Data' superseded SIM cards (Ordnance Survey's 'Survey of Information on Microfilm') in 1992, and continued to be produced until 1999. These maps were the fore-runners of digital mapping and so provide detailed information on houses and roads, but tend to show less topographic features such as vegetation. These maps were produced at both 1:2,500 and 1:1,250 scales.

Legal Notice

The content of this document is confidential and subject to copyright owned by Impartial Assessments of 7 Bell Yard, London, WC2A 2JR, UK (©Impartial Assessments Ltd. 2021). No part of this report may be amended, reproduced, published, or distributed to a third party without the prior written consent of Impartial Assessments.

Impartial Assessments Ltd will not be held responsible for the accuracy of information supplied by the Client (as identified on this page).

Impartial Assessments Ltd has obtained and relied upon third-party information. Where appropriate, the credibility of information sources has been addressed, however in no circumstances will Impartial Assessments Ltd be held responsible for the accuracy of third-party information.

This report refers to the conditions present on Site at the time of writing. Impartial Assessments will not be held responsible for any subsequent changes to these conditions or any relevant information that may subsequently become available which could render part(s) of this report obsolete.

Reliance must be based on the report as a whole and not on extracts which may lead to incorrect conclusions when taken out of context.

This report has been produced in accordance with the relevant industry guidelines that existed at the time of writing. All conclusions and any recommendations represent our professional opinion determined in accordance with these guidelines. Subsequent revisions to these guidelines, new guidelines / legislation or improvements in techniques, may render part(s) of this report obsolete. Impartial Assessments Ltd cannot accept responsibility for future changes to the industry good practice which may affect the opinions expressed within this report. If this report is to be used at a time in excess of two years after its issue date, it is recommended that Impartial Assessments Ltd be contacted to carry out a review.

All reasonable skill, care and diligence has been exercised by Impartial Assessments Ltd in producing this report. However, due to the uncertainty inherent in analysing all risk variables, we cannot/do not guarantee the correctness or accuracy of any interpretation and we shall not, except in the case of gross negligence on our part, be liable for any loss or damages incurred by anyone resulting from any interpretation made within this report.

As detailed a search for pertinent information as possible within the stated timeframe and budget has been conducted. Although unlikely, additional significant information (e.g. local anecdotal accounts) may exist, however future emergence of such evidence would not constitute a failure of this risk assessment.

This report has been prepared for the exclusive use of the Client. Any third party relying on any information, conclusion or recommendation contained within this report, does so at their own risk.
