Net Biodiversity Benefit for Hillcroft, Wrexham Road, Pentre Bychan, Wrexham LL14 4DT

An integrated crevice dwelling bat box will be incorporated into the extension at the south west gable end, e.g. Ibstock Enclosed Bat Box 'C' available from NHBS. Other types may be suitable. Further information is given in the bat box information pack available at https://www.bats.org.uk/our-work/buildings-planning-and-development/bat-boxes.

An integrated bird box suitable for small birds such as robin, tit species and sparrow e.g. Bird Block available from NHBS to be fitted to the north east gable end. Other types may be suitable.
Bat and bird boxes should be placed at least 2 m from the ground.

Four wildlife friendly native trees/shrubs will be planted at the north west end of the site, e.g. bird cherry (*Prunus padus*), wild cherry (*Prunus avium*), crab apple (*Malus syvestris*), rowan (*Sorbus aucuparia*), spindle (*Euonymus europaeus*) or strawberry tree (*Arbutus unedo*). These would also be attractive and a manageable size. Existing hedges are to remain.

A wildflower area of approximately 20 m^2 will be planted with native species at the north west end of the site.
