

Musfunny High-density Acoustic Foam Panels, or similar to be installed.

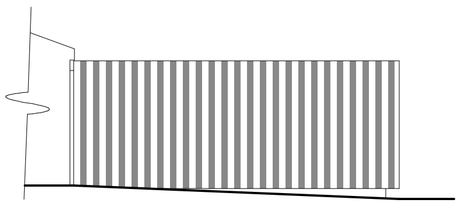

Ground Floor Plan 1:50

Front Elevation 1:100

Side Elevation 1:100

Rear Elevation 1:100

Green Infrastructure Statement

The proposed parcel of land occupies a developed plot of land within the commercial area of the city. Prior to the siting of the containers the land was concrete hard standing and offered no green infrastructure to the local area. As documented it is proposed the development includes the erection of a bird box to provide a net bio-diversity gain for the site.

Schwegler 1SP Sparrow terrace box to be installed prior to completion of development in positions as indicated,
