Construction (Design and Management) Regulations

Design risk assessments are carried out throughout the design stage of this project in accordance with company procedures and manuals. Where reasonably possible all areas of risk applicable to design and end use of the construction have been identified and then eliminated, mitigated or recorded as a residual risk. Note that general risks of which a competent designer or contractor should be aware are not included. This drawing is to be read in conjunction with the Pre-construction Information and all related documents prepared in accordance with the current Construction (Design and Management) Regulations 2015 and all applicable Health and Safety legislation as currently amended.

LEGEND

WINDOW & DOOR TYPES

- Existing metal windows to be repaired - Refer to drawing A-300102 for details. Internal secondary glazing to be installed - Refer to drawing A-300103 for details.
- Existing timber windows to be repaired - Refer to drawing A-300002 for details. Internal secondary glazing to be installed - Refer to drawings A-300104 for details.
- New timber windows to match existing timber windows - Refer to drawings A-300002 & A-300003 for details.
- Existing doors to be refurbished - Refer to drawings A-300102 for details
- New external doors - Refer to drawing A-300004 for details

NOTES:

Site survey required prior to manufacture of new windows to ensure existing window dimensions and details are replicated.

Site survey of existing window openings to determine if there is sufficient depth in the window reveal to locate the secondary glazing.
