Proposed Elevation 01
1 : 50

Proposed Elevation 02
1 : 50

Structural beam (TBC by structural engineer)

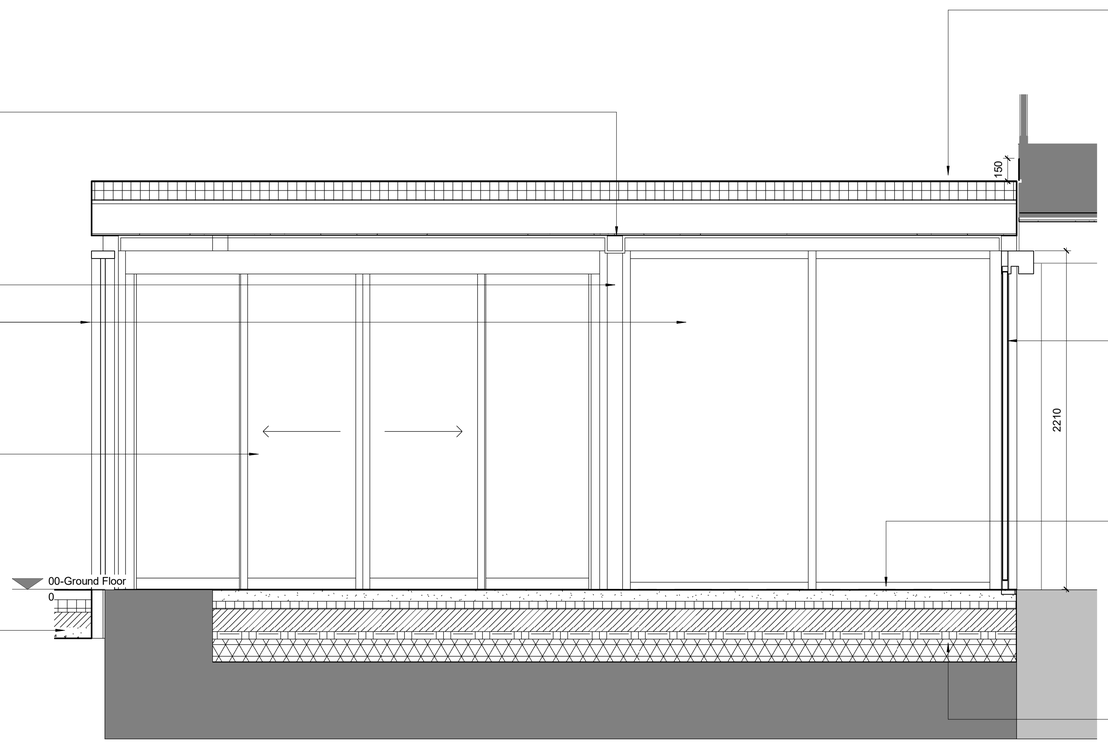

Structural column (TBC by structural engineer)

Full height thermally broken double glazed screens (TBC by contractor)

Record THERMCORD3 double sliding door system (Please refer to manufacturer details)

External ground floor construction (TBC by client)

Ensure proposed external finish is level with internal and existing external floor finishes

Proposed Section
1 : 20

Roof Construction
- Fully adhered single-ply membrane
- 120mm insulation layer
- Vapour control layer
- 22mm plywood deck
- 50mmx195mm timber joists at 600mm centres
- 3mm skim coated 12.5mm plasterboard

Minimum 150mm abutment flashing

Record THERMCORD3 double sliding door system (Please refer to manufacturer details)

Ensure proposed finish is level with existing floor finishes

Ground Floor Construction
- Barrier mat and floor finish
- 75mm thk concrete screed
- Seperating layer vapour barrier)
- 50mm thk underfloor rigid insulation (to achieve 0.18W/m² U-Value)
- High performance DPM under insulation
- 150mm thk beam and block floor

General Notes

1. Contractor to verify all dimensions and check level datums on site
2. All of the designs are the sole property of TACP Architects Ltd and may not be used without their written agreement
3. All prints, specifications and their copyright are the property of TACP Architects Ltd
4. Do not scale off drawings
5. All dimensions shall be checked on site before commencment of shop drawings, manufacture and all discrepencies must be reported to TACP Architects Ltd
