4.0 Protection for Sites of Special Scientific Interest 2

1.0 Introduction

This document has been prepared in support of a Full Planning Application for a new Slurry Tank In existing shed

The design proposals have carefully considered the environmental credentials to ensure that the proposed lagoon and surrounding area and biodiversity are respected.

2.0 Green Infrastructure

The proposal will not impact the Green Infrastructure.

3.0 Net Benefit to Biodiversity and the Step-wise Approach

The site will include the placement of a new Habitat Aid Bat box and adopt a stepwise approach to avoid harm to nature conservation, minimise unavoidable harm by mitigation measures, offset residual harm by compensation measures and look for new opportunities to enhance nature conservation; where there may be significant harmful effects local planning authorities will need to be satisfied that any reasonable alternative sites that would result in less or no harm have been fully considered.

- ***(Bat enhancement)*** 1x Habitat aid bat box at south facing gable of shed.
- ***(Bird enhancement)*** 1x Habitat aid small bird box (32mm entry hole) at north facing gable of shed

4.0 Protection of Sites of Special Scientific Interest

The site does not fall within a SSSI location/area.

We trust the above Green Infrastructure Statement meets with the Local Planning Authority's acceptance and approval.
