Description of Proposed Works

Please describe the proposed works

The application is for the relocation of an aluminium greenhouse along the boundary fence to adjoining unused land and neighbour - previously approved under P/2020/0741. The greenhouse will be approximately 8ft wide and 10 ft deep (narrow edge to face neighbour) with a gabled roof approximately 2ft from the fence boundary.

The greenhouse is green coated aluminium and glass to maintain a low visual profile and visibility from the neighbours will be obscured by a large yew tree nearby, the in place shed along the boundary and the existing fence. There will be a single entrance accessed from within the garden-facing panel of the greenhouse, so no access adjustments to the boundary are required.

The greenhouse is to be used to grow seedlings, vegetables and fruit that require the shelter and support of a weather-protective environment to support the growth of the garden. Pictures of the location and format of the greenhouse are include for reference.

Has the work already been started without planning permission?
