Title : Photos of proposed Materials for drainage around church section

Drawing No. A (050) 09

Date 21.11.24

Read this plan with Drawing No. A (300) 01 D which shows the location of drainage and Drawing No. A (050) 07 which is a section plan of the drainage and ventilation.

100 mm x 1000 mm to be cut away from soil around the permitter of the church section to recue the damp that is penetrating into the building as the external soil level is higher than the internal floor level.
