To whom it may concern

Following on for the refusal of planning permission to park a vehicle on a public road at the above mentioned address (P/2024/0320). We are re-submitting the planning to allow for parking of a vehicle for the use as a private hire vehicle.

We are submitting this application as we have had a drive installed on our property on above mentioned address, so will no longer require to park on a public road, the drive was constructed following council consent and approval, through a registered contractor.

We are also lead to believe there is no fee as we are re-submitting original planning

Regards
