Hi Sharon,

Thanks for your time this afternoon, as discussed following a visit by John Brewin in November we plan to prune the side of the tree (r/h side when looking from Dean Road). The exact amount of pruning would be determined on the day but we estimate it would be 4 branches cut back approximate 3 or 4 meters.

This is required to improve clearance for our neighbours and we are planning to arrange for John and an approved contractor to be on side during the required work.

Kind regards
Clare
