There's loads of home improvers out there, **so why choose Everest?**

BUYING YOUR **PERFECT HOME IMPROVEMENT**

Everest

We've built our reputation over 60 years

First and foremost as part of the ASHI Group we're Britain's leading home improver.

We're a national company but with strong local presence across the UK. We started back in 1965; that's 60 years helping Britain's homeowners transform their homes.

We provide a bespoke service, working with you to create stylish products to improve your home.

From initial design consultation to manufacturing and installation, our expert teams take care of it all, every step of the way.

We're committed to offering premium products with expert knowledge and exceptional service at the heart of everything we do.

You can buy with complete confidence

We're an accredited 'Made in Britain' manufacturer and installer.

We're experienced in handling the detail for you - we take care of the whole process from survey, planning, manufacturing, installing to servicing.

As a Group, we currently have £2.4billion worth of product under guarantee.

MADE IN BRITAIN

Making a mark

We always take standards and approvals very seriously.

All our products are manufactured to the relevant British Standards and we seek approvals from rigorous third party bodies to ensure we meet the very highest of industry standards.

We can say yes to all of this. Do others?

1
A strong national company with a focus on local service established since 1965

YES

2
A wide range of designs from windows, doors, porches, Roofline and garage doors

YES

3

YES

12
All of our installers are regularly reviewed to ensure the installation quality remains to the highest standards

YES

For a warmer, more energy-efficient home

Triple glazing has three panes of glass held together in a glazing unit with two insulating air gaps that slow down the thermal transfer of cold or heat through the unit. Everest offer Triple Glazing as standard which can help lower your energy bills and reduce your carbon footprint. We only use the best components to make superior quality windows and pay attention to all the finer details.

A+ Rated Triple Glazed: The Everest Standard

- Premium product quality with exceptional great looks
- Gas filled sealed units to inhibit the transfer of heat
- Come with a comprehensive 10 & 15 year guarantee

Depending on your needs, we'll help you choose the best window:

- To maximise solar gain
- To retain heat
- To reduce noise

Best for retaining heat

Everest also offer double glazed sealed units in either an A or A+ energy rating, which is greater than Building Regulation standards which insist on B rated windows as a minimum.

With Everest, you can choose the right type of glazing that suits your needs.

A Rated Double Glazed

Great all-round performance

A+ Rated Double Glazed

Best for harvesting the sun's free energy

Helping improve energy efficiency

Our high-performance products not only improve the look of your home they can improve it's energy efficiency too. They can help reduce running costs, actively reduce your home's CO_2 emissions and help lower your carbon footprint.

Take a look at the 'before' and 'after' thermal images of this home.

They were taken at exactly the same time of day under the same weather conditions with the heating systems set at the same temperature.

They show a dramatic difference between heat loss and heat retention - the invisible benefits of upgrading your windows and doors.

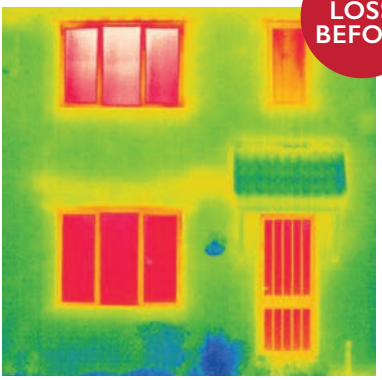

Why we recycle your old windows

Old windows and doors have value. The more waste material we salvage, reclaim and recycle the more cost efficient we become. It's how we offer a recycling value when we improve your home, which helps you, helps us and importantly helps the environment!

recovinyl plus

Everest is an accredited recycler for UK recovinyl

On a thermal image, extreme areas of heat loss show up as red patches.

The heat generated inside the house is no longer leaking into the street.

Our customers have their say

Deciding which style and energy rating of new windows and doors to add to your home has to be right. Where our expertise comes in is making sure that your improvements not only meets all your expectations and needs but also adds value to your property too. Below are a few recent comments from Everest customers.

Garage Door

Right from the first moment I met the agent who came out to talk about what I wanted there were very nice not pushy and explained how long it would take and the installers were very good and I would recommend them to any one they kept in touch all the way till my order was complete. I had Garage door fitted a remote control one.

MRS CALCUTT

Amazing quality and makes me feel safe

Everest kept us up-to-date with our order by communicating with us regularly. They installed our doors early and the people who came to install it did so quickly and efficiently, leaving no mess once they were done. The team were really friendly and informative. The final product looks beautiful, the quality is amazing and it makes me feel safer in my home.

MRS B

The guys made the experience great

The guys made the experience great - the younger guy whose name I've forgotten laughed all the way through the couple of days. And his older partner was very pleasant too. They made an excellent job of fitting windows & back door and we are very pleased with the overall finished product plus they cleaned up every bit of mess inside and even outside on the chips.

MR & MRS JAMES KERR

Professional job, excellent product

From the first phone call to the fitter leaving us with our new door in place I felt that I had chosen the right company. Polite, informative staff throughout the process, no mess left after installation, and, due to a cancellation we received our product sooner than expected. Can't fault Everest!

JUDI ROBERTSON

Stress free experience

I never feel stressed when Everest do a job. I know it will be done well. They are efficient,clean and tidy. The guys aiways seem happy and helpful. I've never found anything to complain abouit. I would never think about having any other firm do work for me, only EVEREST.

MRS SIMMS

Comments taken verbatim from Trustpilot reviews.

Heritage
TIMBER COLLECTION

FSC

GLASS SEALED UNITS GUARANTEED 10 YEARS

The Timber Collection from Everest

Everest's Heritage Timber Collection is a stunning range of wooden casement and sash windows, doors of character and beauty, crafted from high-grade timber selected from FSC accredited sources.

Every product in the Timber Collection is designed and crafted in collaboration with you. So every window and door is as truly individual as your lifestyle. And every product we make is made with absolute precision in our state of the art British factory.

Product specifications and options

- Beauty that's built to last with timber options sourced from sustainable forests accredited by the Forest Stewardship Council (FSC)
- Ultimate peace of mind with painted frames and sealed units guaranteed for up to 10 years
- The perfect solution if you live in a listed building or conservation area
- Complete reassurance with 'Made in Britain' manufacturer and installer accreditation
- We take care of everything including planning permission and building regulations
- A wide range of paint or stain colour options
- High Energy efficient ratings for helping to reduce your fuel bills
- Safe and secure with high-grade security systems designed to prevent forced opening.

Sleek Aluminium

The sleek, sophisticated lines of aluminium are particularly suited to more modern and contemporary homes. Choosing aluminium does not mean comprising on strength, quality or thermal insulation.

Aluminium

- Aluminium profiles are extruded from Aluminium alloy in accordance with BS: 4873:2009
- Ultimate peace of mind with frames guaranteed for 10 years and sealed units for 15 years
- Complete reassurance with 'Made in Britain' manufacturer and installer accreditation
- A wide range of colour options including any RAL colour so you can achieve your ideal improvement
- High Energy efficient ratings for helping to reduce your fuel bills
- Safe and secure with high-grade security systems designed to prevent forced opening
- Visible sightline of 53mm on casement windows which is responsible for much of the aesthetic appeal.

Porches

Creating valuable extra space

Our porches are built to match the style of your home and the space you have available. Finished with any fully double-glazed doors and windows from our range. Plus, we match brick, stonework or render to your existing style and build whichever roof profile is best suited.

- 6 x roof style options
- Finishes: PVCU, Timber or Aluminium windows and doors
- High security
- Full range of decorative glazing options
- Porch guaranteed for 10 years and 15 years on sealed units
- Peace of Mind - full service
- Foundations - built to a depth of at least 650mm and thick damp proof membrane
- We undertake plastering, lighting and power points
- In most cases as long as they are under 3m² in floor area and not within 2 metres of any boundary which fronts the highway, you do not need planning permission or building regulation approvals
- If Porch is to be over 3m² or will need to be approved, that's no problem, we at Everest will deal with any requirements you have.

Roofline and Cladding

The practical and attractive finishing touch

You no longer need to worry about peeling paintwork, water ingress and timber decay.

Say goodbye to regular maintenance, say hello to a greater looking home with Everest's fit and forget Roofline and Cladding.

- 10 year guarantee
- BBA certificate 04/4180 for White Roofline range
- PVCU for low maintenance – no need to paint
- Fascias, Soffits & Bargeboards – range of colours
