Wrexham
LL11 1AY

Dyddiad/Date: 19 March 2025

Annwyl Syr/Madam/Dear Sir/Madam,

BWRIAD/PROPOSAL: ERECTION OF REPLACEMENT MILKING PARLOUR AND ALL ASSOCIATED WORKS

LLEOLIAD/LOCATION: HILLSIDE FARM, WILLINGTON, MALPAS, SY14 7LY

Thank you for consulting Cyfoeth Naturiol Cymru (CNC)/Natural Resources Wales (NRW) about the above, which we received on 10 March 2025.

We have no objection to the proposed development as submitted and provide the following advice.

Protected Sites and Foul Drainage

We note the application site is within the catchment of the River Dee and Bala Lake Special Area of Conservation (SAC). In line with our *Advice to Planning Authorities for Planning Applications Affecting Nutrient Sensitive River Special Areas of Conservation* (28 June 2024), under the Habitats Regulations, Planning Authorities must consider the impact of proposed developments on water quality within SAC river catchments. We refer you in particular to the section of our Advice titled '*What does this mean for agricultural developments?*'

We note from the information submitted that it is not the Applicant's intention to increase stock numbers and that the development is intended to improve the welfare facilities for current stock levels.

Any slurry/manure produced should be managed in line with The Water Resources (Control of Agricultural Pollution) (Wales) Regulations 2021 and Code of Good Agricultural Practice guidance. Any new channels or pipes to an existing slurry storage system must comply with the Regulations 2021 and we should be informed of any substantial changes at least 14 days before construction begins. Further information on what we require is available on our website at Natural Resources Wales / Silage and slurry storage.

In consideration of the above, provided that you are able to conclude that the development is not likely to have a significant effect on the SAC, we have no objection to the proposal. However, should you conclude that the proposed development is likely to have a significant effect on the SAC, the Applicant will then need to submit whatever evidence they deem appropriate (seeking advice from consultants as may be necessary) to demonstrate no adverse effect on site integrity.

Protected Species

No ecological information has been submitted in support of this application. We recommend you seek the advice of your Authority's ecologist about the requirement for further information to be submitted in support of the application, and to scope the need for bespoke surveys, where required.

Other Matters

Our comments above only relate specifically to matters included on our checklist, *Development Planning Advisory Service: Consultation Topics* (September 2018), which is published on our website. We have not considered potential effects on other matters and do not rule out the potential for the proposed development to affect other interests.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our website for further details.

If you have any queries on the above, please do not hesitate to contact us.

Yn gywir / Yours faithfully,

Pauline Gallagher Brown
Cynghorydd - Cynllunio Datblygu/Advisor - Development Planning
