Hi Sharon,

No tree report required due to the fact that there are no proposed structures with foundations required, no additional disturbances to soil structure or levels expected and the impact of proposed site usage upon existing boundary features is expected to be negligible.

(Landscape enhancement will be a requirement however in order for the proposal to comply with WCBC Tree & Woodland Strategy and PPW10 (2018) but I can comment further on that as a consultee).

Festive Regards

Hi Jon ,

Could you provide me with comments onto whether a tree report would be required for this application.

Thanks

Sharon Williams
