Site Area

What is the site area?

9626.00

Scale

Sq. metres

Does your proposal involve the construction of a new building which would result in the loss or gain of public open space?

◯ Yes
⊘ No

Description of the Proposal

Description

Please describe the proposed development including any change of use

We are looking for permanent planning permission for a rectangular wooden gazebo, adjacent to our pre-school/Nursery Plus mobile classroom to allow the young children continued access to their secured play area during any inclement weather. This will allow teaching and learning to continue outdoors, helping the children to develop their gross motor skills using the available play resources even when the weather conditions could be drizzling or snowing. This facility would assist us in further following the requirements/guidance of Care Inspectorate Wales and enhancing the provision we offer to the children.

The gazebo is of a wooden construction, pent roof with guttering and a drainpipe discharging into a water butt. The water butt will add to our environmental credentials and will be used for watering the plants that the children care for in the beds and containers. The gazebo is a free-standing structure adjacent to the classroom but not attached to it. The north side of the gazebo (nearest side to Lisburne Grove) is 5 metres from the school boundary fence line which has a mature beech hedge of approximately 1.5m width and 2m height.

Has the work or change of use already started?

From 7 January 2019, all new developments of more than 1 dwelling house or where the construction area is 100 square metres or more, require Sustainable Drainage Systems (SuDS) for surface water designed and built in accordance with the Welsh Ministers' Statutory SuDS Standards. SuDS Schemes must be approved by your local authority acting in its SuDS Approving Body (SAB) role. Please contact your local authority for details of how to apply.

How will surface water be disposed of?

☐ Sustainable drainage system

☐ Existing water course

☑ Soakaway

☐ Main sewer

☐ Pond/lake

Biodiversity and Geological Conservation

To assist in answering the following questions refer to the help text. The help text provides further information on when there is a reasonable likelihood that any important biodiversity or geological conservation features may be present or nearby and whether they are likely to be affected by your proposals.
