67 Acton Gate

Planning Application - 1.Window Upgrade

Doc PP2 v2
3.04.204

Proposal

Window Style

- To replace the current Single glazed windows at 67 Acton Gate with Double Glazed Windows.
- Due the current condition of the Timber windows, it would be our preference to install Wood effect PVC double glazed windows (Flush casement with astragal bars).
- Supplier - Inspiration - Timberlook Heritage Flush Sash
- 71 Acton Gate was Grade Listed with PVC double glazed Windows, and these were replaced again 2023.
- 69 Acton Gate installed PVC double glazing several years ago, and are still present at the property.
- As a strong community exists on Acton Gate, we have consulted with our Neighbours about this proposed plan, and all are supportive with our request with no objections raised.

Non - Original Windows
