Edition 3.0 – 01.07.2020

Product information
VELUX Top-hung pine roof window GPL

Product description

- High quality natural pinewood coated with impregnation and layers of water-based acrylic white paint or clear lacquer
- The sash can remain open in any position up to an angle of 45°
- Bottom handle for convenient operation
- Ventilation flap and integrated dust and insect filter
- Maintenance-free exterior covers

Roof pitch

- Can be installed in roof pitches between 15° and 55°
- Installation in roof pitches from 55° up to 75° is possible, but specially manufactured springs must be ordered

Materials

- Laminated pinewood
- Glass
- Lacquered aluminium, copper or zinc
- VELUX ThermoTechnology™ insulation

A top-hung roof window is ideal if you have to, or wish to, place your window at high level, for instance in connection with a high knee wall.

For an unobstructed panoramic view, the window opens outwards on its top hinges to an angle of 45°.

Glazing features

		--70	--68	--66	--69	--67
	**Heat insulation** Low energy glazing provides reduced heat loss through the window and enhanced indoor comfort.	●	●●	●●●	●●	●●●
	**Solar gain** In the wintertime, the heat from the sun entering through the windows is a usable solar gain.	●●●	●●	●●	●	●●
	**Solar protection** In warm climates and in rooms with large window areas, a sun protective coating provides a better indoor climate during summer periods. Alternatively, exterior sunscreening can be installed.				●●●	
	**Sound insulation** A combination of laminated glass and optimal glass thickness provides better sound insulation. Frame/sash construction and gaskets are equally important.	●●	●●	●●●	●●	●●●
	**Security** Thicker laminated inner glass pane designed to increase resistance to manual attack (burglary).	●	●	●	●	●
	**Safety** Laminated inner glass is designed to hold the fragments together if the glass breaks. We recommend that you consider using glass units with laminated glass on the inside for windows placed above areas where people sleep, play or work.	✓	✓	✓	✓	✓
	**Outside strength** Toughened outer glass pane makes your glazing more resistant to hail, heavy wind and snow loads.	✓	✓	✓	✓	✓
	**Delayed fading of materials** Inner laminated glass protects materials behind the glass against UV radiation and therefore delays fading of the materials.	✓	✓	✓	✓	✓
	**Rain noise reduction** The combination of laminated glass and extra thick glass helps provide a significant, audible reduction of rainfall sound. Frame/sash construction and gaskets are equally important.	✓	✓	✓	✓	✓
	**Easy-to-clean** The easy-to-clean coating minimises the cleaning frequency of the outer glass pane and gives you a clearer view in case of rain.			✓		✓
	**Anti-dew** The anti-dew coating significantly reduces the days with dew on the outer glass pane and thus gives you a clear view.			✓		✓

● **Good** ●● **Better** ●●● **Best** ✓ **Feature included in glazing variant**

Visible features

1 Lock casing

- electro-galvanised steel
- colour: "silver"

2 Data plate

- window type, size and variant code
- CE marking
- production code
- QR code

3 Click-on covers

- lacquered aluminium

4 Control bar

- anodised aluminium

5 Excellent insulation

- expanded polystyrene
- colour: grey charcoal

6 Barrel bolts

- plastic
- colour: grey
- steel
- colour: "silver"

7 Hinges with friction

- electro-galvanised steel
- colour: "silver"

8 Barrel bolt bushings

- plastic
- colour: white/grey

9 Bottom handle

- anodised aluminium

Cleaning and maintenance

To clean the outer pane from the inside, rotate sash and secure in cleaning position with barrel bolts.

VELUX repair and maintenance kits are available.

Exterior covers

Material	NCS standard colour	RAL nearest standard colour
Lacquered aluminium (-0--) grey	S 7500-N	7043
Lacquered aluminium (-5--) black	S 9000-N	9005

●●● Available in manual and mains/solar powered versions
●● Available in manual and mains powered versions
● Available in manual version
The mains and solar powered versions are part of the VELUX INTEGRA® product range.

Flashings and installation products

Flashings:
- ED- for single installation
- EB- for twin installation
- EK- for combi installation

Available for standard and recessed installation

Installation products:
- Installation set BDX 2000 (incl BFX)
- Underfelt collar BFX 1000 incl transverse drainage gutter
- Vapour barrier collar BBX 0000
- Linings LS- (incl BBX)

Note
