Jenni

The above planning application will affect the current alignment of Rhosllanerchrugog public footpath 7 as shown on the attached plan.

I have checked the original outline and full planning permissions for the school (P/2005/1428 and P/2006/0544), and although there are notes to the applicant on both decision letters regarding the diversion of this footpath, I can find no record of a legal diversion order being made at the time. Whilst this has not caused the school or the public using the paths in this area any problems that I'm aware of, the applicant may wish to take this opportunity to legally divert the alignment of footpath 7 to take the path out of the school grounds.

Regards

Sean
