Wrexham County Borough Council
The Guildhall
Wrexham
LL11 1AY

Dyddiad/Date: 27 June 2025

Annwyl Syr/Madam/Dear Sir/Madam,

BWRIAD/PROPOSAL: **CHANGE OF USE AND CONVERSION OF EXISTING BUILDING FROM CATTERY (SUI GENERIS) TO DWELLING (C3) AND ASSOCIATED WORKS INCLUDING SINGLE STOREY SIDE AND REAR EXTENSIONS AND CREATION OF NEW DRIVEWAY**

LLEOLIAD/LOCATION: **FORMER PARKSIDE CATTERY, PARK LANE LL12 0BW**

Thank you for consulting Cyfoeth Naturiol Cymru (CNC)/Natural Resources Wales (NRW) about the above, which we received on 17 June 2025.

We have concerns with the application as submitted because inadequate information has been provided in support of the proposal. To overcome these concerns, you should seek further information from the applicant regarding foul drainage. If this information is not provided, we would object to this planning application. Further details are provided below.

Protected Sites – Foul Drainage

We note the application site is within the catchment of the River Dee and Bala Lake Special Area of Conservation (SAC). In line with our *Advice to Planning Authorities for Planning Applications Affecting Nutrient Sensitive River Special Areas of Conservation* (28 June 2024), under the Habitats Regulations, Planning Authorities must consider the impact of proposed developments on water quality within SAC river catchments. We therefore advise you to consider whether the proposals, as submitted, would increase the volume of foul discharge from the site in planning terms.

We note from the information submitted that the development has the potential to increase the amount of nutrients being discharged from the site. However, no specific details have been provided concerning the proposed method for foul drainage disposal. As such, we refer you to our Advice and advise you to seek further information from the applicant as identified in the section titled *'What does this mean for development proposals involving*

private sewage treatment systems" or *'Can additional wastewater be discharged to existing private sewage treatment systems?'* of that Advice.

Ultimately, the suitability of foul drainage arrangements for the proposed development is a matter for your Authority to determine. We therefore advise you to take the above into account in your determination of whether the development is likely to have a significant effect on the SAC. Should you determine that an Appropriate Assessment is required, the Applicant will then need to submit whatever evidence they deem appropriate (seeking advice from consultants as may be necessary) to demonstrate no adverse effect on site integrity.

Protected Species

No ecological information has been submitted in support of this application. We recommend you seek the advice of your Authority's internal ecological adviser about the requirement for further information to be submitted in support of the application, the need for bespoke surveys and the scope of further information, where required.

Other Matters

The advice in this letter relates to matters which are included on our consultation topics list. We do not rule out the potential for the proposed development to affect other environmental interests that are not included on this list.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our website for further details.

If you have any queries on the above, please do not hesitate to contact us.

Yn gywir / Yours faithfully,

Sara Thomas
Cynghorydd - Cynllunio Datblygu/Advisor - Development Planning
