Good afternoon,

Regarding the planning application referenced above.

Information retained within the Historic Environment Record indicates that the proposed building will be near the site of the former Pant Tywyll smelting works which were shown on the Tithe Mapping of 1844 and the Ordnance Survey mapping of the late 19th century. The potential for sub-surface evidence of the process may lie in the area for development. With the information available I recommend that a condition of an **Archaeological Watching Brief** on the groundworks for the new dwellings be placed on the application.

We would recommend that a **qualified archaeologist** is contracted to be present throughout the duration of the groundworks so that an adequate record of any archaeological features revealed by these works can be made. This advice is in accordance with the guidance set out in TAN 24 (May 2017) and Planning Policy Wales (Feb 2021).

The archaeologist should be part of a recognised professional archaeological organisation working to the Standard and Guidance of the Chartered Institute for Archaeologists (CIFA) relating to an Archaeological Watching Brief. The archaeologist should be working in accordance with an approved written scheme of investigation (WSI) and should preferably be part of a Registered Archaeological Organisation with the CIFA.

A suitable condition to facilitate the contracted watching brief is provided below:

Suggested planning condition to facilitate an archaeological watching brief the developer shall ensure that a suitably qualified archaeological contractor is present during the undertaking of any ground works in the development area so that an archaeological watching brief can be conducted. The archaeological watching brief must meet the standards laid down by the Chartered Institute for Archaeologists Standard and Guidance for archaeological watching briefs.

A copy of the resulting report should be submitted to the Local Planning Authority and the Development Control Archaeologist, Clwyd-Powys Archaeological Trust (The Offices, Coed y Dinas, Welshpool, SY21 8RP Email: neil.bayliss@cpat.org.uk Tel:01938 553670). After approval by the Local Planning Authority, a copy of the report and resulting archive should also be sent to the Historic Environment Record Officer, Clwyd-Powys Archaeological Trust for inclusion in the regional Historic Environment Record and to the National Monuments Record, RCAHMW.

Reason: To secure preservation by record of any archaeological remains which may be revealed during ground excavations for the consented development.

I have attached a standard brief for this work and information on archaeological contractors that the applicant may wish to engage. Please forward all this information to the applicants so that they are fully aware of the requirements.

Should you wish to discuss the above recommendations do not hesitate to contact me.

Kind regards,

Neil Bayliss
