Date: 07 July 2025

Dear Sir/Madam,

PROPOSAL: CHANGE OF USE OF LAND FOR SITING OF STATIC CARAVAN FOR RESIDENTIAL PURPOSES

LOCATION: LAND AT GYFELIA TERRACE CINDERS LANE GYFELIA WREXHAM

Thank you for consulting Cyfoeth Naturiol Cymru (CNC)/Natural Resources Wales (NRW) about the above, which we received on 16 June 2025.

We have concerns with the application as submitted because inadequate information has been provided in support of the proposal. To overcome these concerns, you should seek further information from the applicant regarding protected sites. If this information is not provided, we would object to this planning application. Further details are provided below.

We also advise that based on the information submitted to date, the document identified below should be included in the approved plans and documents condition on the decision notice. Without the inclusion of this document we would object to this planning application.

- *Max Ellison (10th April 2025) Proposed Static Caravan and Associated works Gyfeliau Terrace, Cinders Lane, Gyfelia, Wrexham, LL13 0YH Reasonable Avoidance Method Statement.*

Protected Sites

We note the application site is within the catchment of the River Dee and Bala Lake Special Area of Conservation (SAC). In line with our [Advice to Planning Authorities for Planning Applications Affecting Nutrient Sensitive River Special Areas of Conservation \(28 June 2024\)](#), under the Habitats Regulations, Planning Authorities must consider the impact of proposed developments on water quality within SAC river catchments. We therefore advise you to consider whether the proposals, as submitted, would increase the volume of foul discharge from the site in planning terms.

We note from the information submitted that a new septic tank is to be installed to provide foul drainage for the development has the potential to increase the amount of nutrients being discharged from the site. As such, we refer you to our [Advice](#) and advise you to seek further information from the applicant. We advise you to seek further information as identified in the section titled '*What does this mean for development proposals involving private sewage treatment systems*' of that Advice.

Ultimately, the suitability of foul drainage arrangements for the proposed development is a matter for your Authority to determine. We therefore advise you to take the above into account in your determination of whether the development is likely to have a significant effect on the SAC. Should you determine that an Appropriate Assessment is required, the Applicant will then need to submit whatever evidence they deem appropriate (seeking advice from consultants as may be necessary) to demonstrate no adverse effect on site integrity.

Protected Species

We have reviewed the following information which has been submitted in support of the application: Max Ellison (10th April 2025) Proposed Static Caravan and Associated works Gyfeliau Terrace, Cinders Lane, Gyfelia, Wrexham, LL13 0YH Preliminary Ecological Appraisal (C565/1.0) and Max Ellison (10th April 2025) Proposed Static Caravan and Associated works Gyfeliau Terrace, Cinders Lane, Gyfelia, Wrexham, LL13 0YH Reasonable Avoidance Method Statement.

The information has identified that great crested newts (GCN) are material to the application site.

GCN and their breeding sites and resting places are protected under the Conservation of Habitats and Species Regulations 2017 (as amended) and Schedule 5 of the Wildlife and Countryside Act 1981. Where GCN are present and a development proposal is likely to contravene the legal protection, they are afforded, the development may only proceed under licence issued by Natural Resources Wales, having satisfied the three requirements set out in the legislation. A licence may only be authorised if:

- i. The development works to be authorised are for the purpose of preserving public health or safety, or for other imperative reasons of overriding public interest, including those of a social or economic nature and beneficial consequences of primary importance for the environment;
- ii. There is no satisfactory alternative; and,
- iii. The action authorised will not be detrimental to the maintenance of the population of the species concerned at a favourable conservation status in its natural range.

To avoid developments with planning permission subsequently not being granted a licence, the Local Planning Authority should take Planning Policy Wales and Technical Advice Note 5 into account when considering development proposals where a European Protected Species is present.

Please note, for the purposes of providing advice at the planning application stage, our comments are limited to the 3rd test "demonstration of no detriment to the maintenance of the favourable conservation status of European protected species". We advise that before any consent is given, as informed by the provisions of Regulation 9 of the Conservation of Habitats and Species Regulations 2017 (as amended) the LPA satisfy itself as to whether

the scheme satisfies the other two tests, namely a relevant Habitats Regulations purpose and whether there is no satisfactory alternative to the proposal.

We consider that the above report provides an adequate basis upon which to consider the potential impacts of the scheme on this species and inform the decision-making process.

Therefore, we advise that the following document is included in the approved list of plans / documents condition within the decision notice: Max Ellison (10th April 2025) Proposed Static Caravan and Associated works Gyfeliau Terrace, Cinders Lane, Gyfelia, Wrexham, LL13 0YH Reasonable Avoidance Method Statement.

Other Matters

The advice in this letter relates to matters which are included on our [consultation topics list](#). We do not rule out the potential for the proposed development to affect other environmental interests that are not included on this list.

We advise the applicant that, in addition to planning permission, it is their responsibility to ensure they secure all other permits/consents/licences relevant to their development. Please refer to our [website](#) for further details.

If you have any queries on the above, please do not hesitate to contact us.

Yours faithfully,

Ruth Prichard
