ExcelClad 1000-19 Over Rail

Polyester
Pre-finished steel for agricultural roof and wall cladding

ExcelClad is a coated steel product that has been specifically developed to meet the aggressive demands of the agricultural sector. The result is a fast-growing solution in a range of colours that meet the needs of the industry for a product with the best environmental, aesthetic and performance characteristics.

25-30 micron Hi-build polyester top coat
Smooth aesthetic finish
Hot-dipped galvanneal steel substrate
Galflex, Galflex 2.0, Zinnex options
Excellent corrosion resistance

Ideal for livestock and poultry buildings
Use for internal or external applications
Carefully selected colour range
Quick lead times
High performance commercial coating

Available in the following colours:

Gloucester Grey 10A25	North Grey 10B25	Dark Blue 10C29
Emerald Green 12B29	White 10E35	Vanadium Brown 10D23

All colours are available subject to quantity.
Other colours available upon request and subject to minimum order requirements.
