Subject: P/2024/0215 - Pandy Wood, Pandy, Wrexham, LL20 7PD (Prior Notification) - NRW Response NRW:08543406

Dear Simon,

Thank you for your email regarding the Prior Notification in respect of a new agricultural building for the storage of forestry machinery in land at Pandy Wood, Pandy.

The Pandy Quarries SSSI is designated for its geological features. It appears that there is no overlap between the SSSI and the proposed agricultural building (as detailed on the Site Location drawing) and its associated works. Therefore, we do not consider there would be an impact on the SSSI. However, we note that the red line boundary for the application site does encroach into the SSSI, and we would advise that this should be clarified with the applicant.

Should any works associated with the new agricultural building encroach into the SSSI we would request that we are re-consulted on the proposal.

We note there are a number of watercourses within the red line boundary for the application and that the Afon Ceiriog is downstream of these watercourses. The Afon Ceiriog is within the River Dee and Bala Lake SAC and SSSI therefore the following advice should be given to the applicant:

During the construction phase you should take any precaution to prevent contamination of surface water drains and local watercourses. Oils and chemicals should be stored in bunded areas and spill kits should be readily available in case of accidental spillages.

For further guidance please refer to GPP 5 and PPG 6 at the following link:

[Guidance for Pollution Prevention \(GPP\) documents | NetRegs | Environmental guidance for your business](#)

If you have any queries please do not hesitate to contact me.

Kind Regards

Rachel Burke
