Subject: The Old Croft,

Morning Dan

Thank you for meeting on site on Friday.

I attach herewith the following:

Proposed replacement hardwood flush casement windows quote and profiles drawing. This is an alternative supplier to that already submitted but maintain the profiles discussed.

Quotation from Marlin windows in respect of the extension windows which corresponds with the style indicated on the approval. These are a very good quality, well engineered, windows and doors in the "Crittall Style" and the website link is: <https://www.marlinwindows.co.uk/>

(The does quote includes internal windows and doors as well).

In respect of the solar panels proposed. – These would only be on the rear elevations as discussed and are in line with the current energy policies. The type proposed is "in roof" and will be set in trays to maintain a low profile and

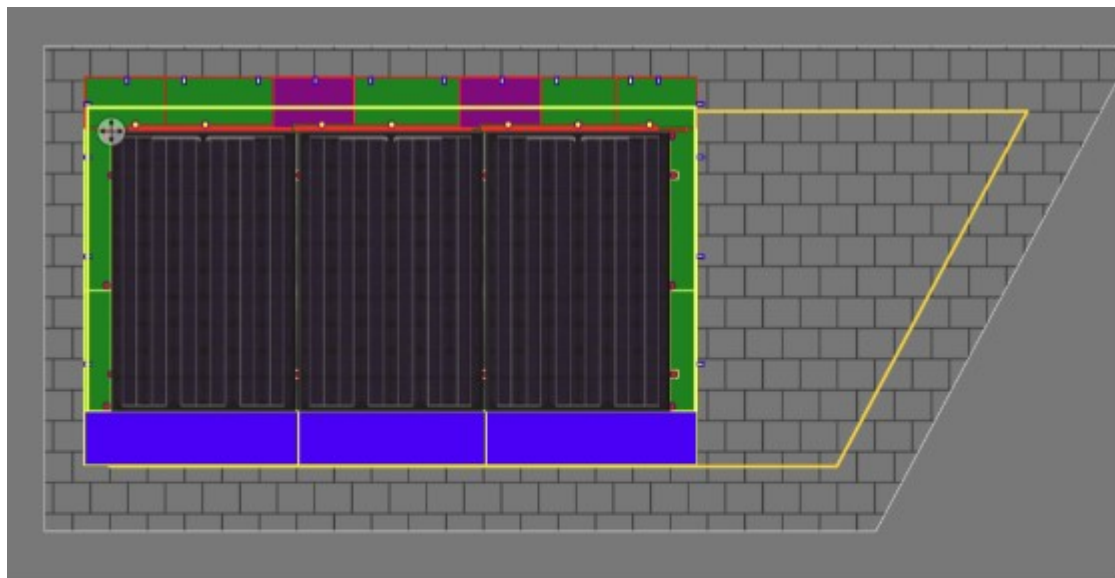

avoid the usual projection above the level of the roof covering. (Illustrations pasted below with detail within the quote attached).

I will come back to you in respect of the re-pointing to the front once this is commenced.

I look forward to your comments.

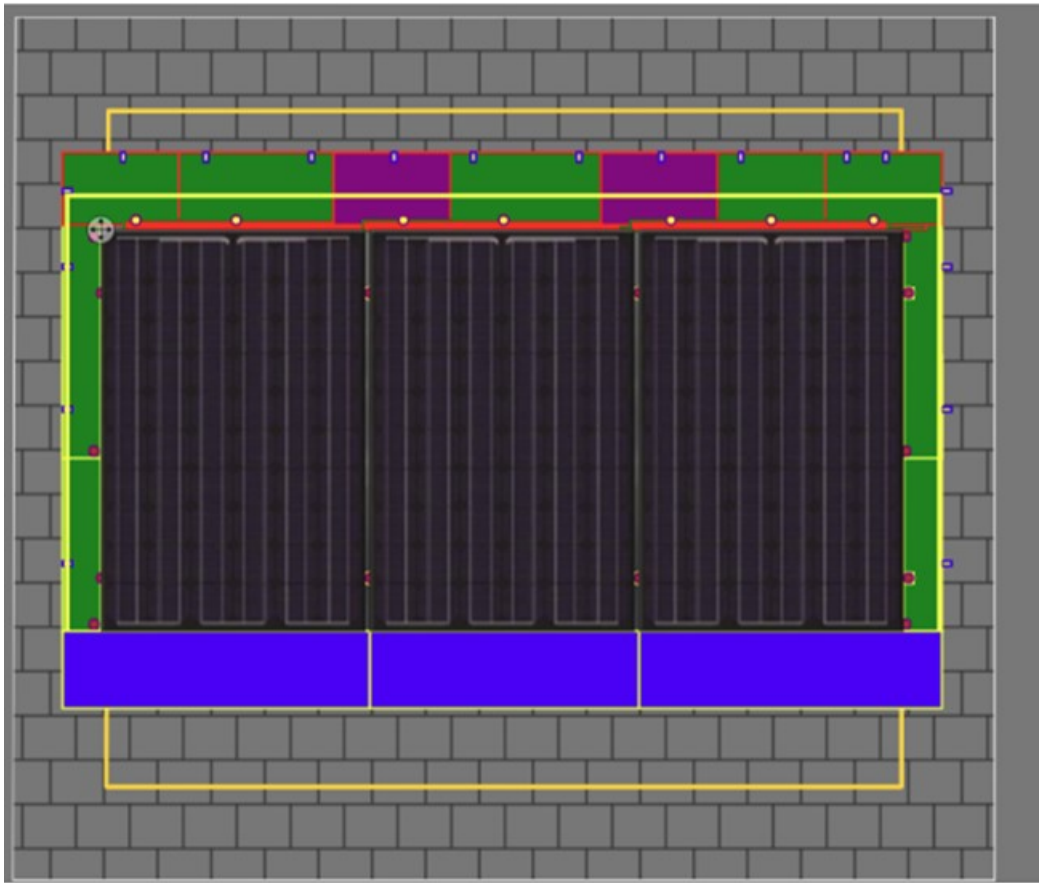

Kind regards

Pete
