Good afternoon,

Regarding the planning application referenced above.

The WSI provided does not meet the requirements of the Watching Brief (Recently renamed to Archaeological Monitoring and Recording (AMaR)) and the deposition criteria regarding Data Management, Selection Strategy, Archive Content List, and Deposition Location (HER Submission Guidelines attached to the email).

In this case the WSI does not meet the standards required and the discharge is not approved and should be revised to meet the AMaR guidelines (attached).

Please do contact if there any questions.

Kind regards,

Neil Bayliss
