

The diagram illustrates a cross-section of a dam structure. The upstream side (left) features a spillway with a sloped face and a vertical downstream face. The dam body is shown with a concrete structure. The downstream side (right) includes a powerhouse with a large circular turbine. The dam is supported by a foundation. The diagram is labeled with various dimensions and elevations, including a maximum elevation of 201,000 and a minimum elevation of 195,000. The dam structure is shown in a cross-section view, highlighting the internal components and the overall profile.
