

I would like to confirm my support for the above appeal. Appropriate Christmas events are not that prolific in the area around North Wales and Chester area. This is one of the better ones which is suitable for all - very young children through teenagers. It is an opportunity for both parents and grandparents to celebrate with their families.

I personally have found this venue to be both enjoyable and safe for my self and extended family to visit in previous years.

It would be a great disservice if yet another of these type of venues was to be closed. We have seen too many closed over the last five years.

I respectfully request that the appeal committee reviews this decision and that the council work with the farm to deliver a positive outcome.

I look forward to once again treating all my grandchildren and their parents to a true family experience
