

The Christmas Farm is, most certainly, one of the best additions to the village of Llay.

It is such a unique venture which is being supported by so many locals and many families from the area.

So many have loved being able to enjoy the events which have been held there - these can all be improved with the addition of a carpark and toilet facilities.

Having lived in the village for more than 50 years it is somewhere I enjoy taking my grand-children. I sincerely hope that permission is granted for the improvements and future additions Christmas Farm hope to complete.
