Subject: Fw: P/2023/0682 - Penrhos Farm, Brymbo

Hi Gwyn,

Please see response below from the Applicant's Son. It would appear that the new building allows him to keep 60 cows and 60 calves. Is that sufficient for you to go back to NRW?

Thanks and best regards,

Steve

Hi Steve it's for all the calf's that are of the cows so I have 60 cows that have calves so all their calves go in . And the head of cattle I have at the minute is 120 and I normally buy in aswel from the markets towards the back end to try make some profit on them
Many thanks hope this is ok

Hi James,

Please see below. Can you give me an idea of how the new shed will increase your stock so that I can go back to Gwyn?

Thanks and best regards,

Steve

Good morning Steve,

I'm emailing in relation to the above planning application submitted to the LPA.

Whilst I am yet to review the application in any detail, I have received a query from NRW, asking if the shed is to facilitate an increase in livestock numbers on the holding or not. I note within the Cover Letter that you state existing sheds on-site can only accommodate approximately 40 cattle, and therefore I assume that the building subject of the application is to increase stock numbers on-site during winter months?

I would be grateful if you could please clarify so I can go back to NRW.

Kind Regards,

Gwyn
