

Dear sir,

We write in support of the above appeal, from our perspective as another local tourism business.

The proposed development will be a valuable addition to our local visitor economy and wider rural diversification agenda. The development at Christmas Farm is supportive of many areas of the local authority's planning, leisure, environmental and economic development policies. The additional visitors attracted to the area will generate additional income across a range of other local businesses. All of these benefits should be warmly welcomed.

We trust that the issues of phosphate discharge and pedestrian safety can be fully resolved now the all the relevant information can be assessed, and that common sense will prevail - enabling this locally supported development to proceed.

Cofion cynnes / Kind regards

Robin Wiggs
