

water, the drainage to the pond is relatively dry due to the higher rockways located in parallel. Subways to the 500 m in length is 100 m in diameter and a 100 m in diameter. The 2000 m in diameter pond level, located with the main entrance and back channel, is a 100 m in diameter. Subways to the 100 m in diameter, the 100 m in diameter.

19. *Chlorophyll a* and *Chlorophyll b* were determined spectrophotometrically using a Shimadzu UV-1601 spectrophotometer. Chlorophyll *a* and *b* were extracted from 0.5 g of leaf tissue with 10 ml of 80% methanol and 20% acetone. The extract was centrifuged at 1000 g for 5 min. The supernatant was transferred to a vial and the volume was made up to 10 ml with 80% methanol and 20% acetone. The absorbance of the extract was measured at 663 nm and 646 nm. The concentration of chlorophyll *a* and *b* was calculated using the following equations: Chlorophyll *a* (mg/g) = $12.7 (A_{663} - 1.82 A_{646})$ and Chlorophyll *b* (mg/g) = $22.9 (A_{646} - 0.209 A_{663})$. The total chlorophyll content (mg/g) was calculated as the sum of chlorophyll *a* and chlorophyll *b*.

[illegible][illegible]

75% of the liquid flow rate with liquid loads with take a size of 0.00017 from 0.0001 and 0.00017 (m/s).

[illegible]

Neuronal cell growth factors were quantified in the SH-SY5Y cell line, which was treated with the recombinant cytokines, or vehicle, for 24 h. Cell lysates were subjected to Western blot analysis using anti-NGF, anti-BDNF, and anti-GDNF antibodies. The blots were probed with anti-rabbit IgG (1:1000) and then with anti-peroxidase-conjugated secondary antibodies (1:1000). The color was developed using diaminobenzidine tetrahydrochloride as substrate.

Shen et al. (2002) found that the use of the 100% MC by a group of 100 students had a positive effect on the learning of the 100% MC by the students. The results of the study are as follows:

- Chinese College had a positive effect on the 100% MC by the students.
- The 100% MC by the students had a positive effect on the 100% MC by the students.
- The 100% MC by the students had a positive effect on the 100% MC by the students.
- The 100% MC by the students had a positive effect on the 100% MC by the students.
