

Green Infrastructure Statement - 9 Darby Road

The property has a front and back garden with grassed areas to front and rear.

The only green areas to be lost is a small area of lawn (18 sq.m) which equates just 10% of the total grassed area for the property.

Other than the creation of the driveway the grassed/planted areas are to be retained and will continue to be used as garden area retaining the green links and infrastructure within the area.
