

pla0076770

LEGEND(Representative of most common features)

Notes:

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Dair Cybera Cyllyngedd (The Company) gives this information as to the position of its underground apparatus by way of general guidance only and is not the strict understanding that it is based on the best information available and no warranty as to its correctness is relied upon in the event of excavations or other works made in the vicinity of the company's apparatus. The usual of locating apparatus before carrying out any excavations must entirely on you. The information which is supplied by the Company, should be in accordance with statutory requirements of sections 150 and 151 of the Water Industry Act 1991. It should be based upon the best information available to the Company and be prejudicial to the general safety of the public. It should be noted that the records that are available to the Company may not disclose the existence of a water main, service pipe, sewer, lateral drain or disposal main and any associated apparatus laid before 1 September 1989, or any other structures or apparatus which may be situated in the vicinity of the proposed excavation. It must be understood that the furnishing of this information is entirely without prejudice to the provisions of the new Roads and Street Works Acts 1991 and the Company's right to be compensated for any damage to its apparatus.
