NGR SJ3887545404 **COMMUNITY** Bangor Is-y-coed

TYPE MEDIEVAL, INCISED STONE. Rank: 1

SUMMARY

DESCRIPTION A coffin lid illustrated by Thomas Pennant in his Tour in Wales (1784). A conventional checky heraldic shield, sword behind set bend-wise, and remaining space filled with curving stems branching out into tri-lobed leaves. Now lost (Pratt, Derrick, 1992).

NGR SJ3887545404 **COMMUNITY** Bangor Is-y-coed

TYPE MEDIEVAL, INSCRIBED STONE. Rank: 1

SUMMARY

DESCRIPTION A sepulchral slab was formerly to be found inside the church (see PRN16314), but is now missing (Silvester et al, 2011). The lower half of a 14th century coffin lid. Apparently in situ in 1992, when its design was described as a 'simple fretted central rib with a series of curved volutes in pairs....' (Pratt, Derrick, 1992, p41).

PRN 19338 **NAME** Bangor Is-y-Coed culverts

NGR SJ388459 **COMMUNITY** Bangor Is-y-coed

TYPE POST MEDIEVAL, CULVERT. Rank: 1

SUMMARY

DESCRIPTION Two stone culverts visible in the river bank to north of Bangor on the east bank. Both are roughly square c0.7m across internally and constructed of dressed sandstone blocks with lime mortar, resting on a rough base of cemented pebbles. The line of the culverts can be traced as shallow depressions in the field for c30m, apparently both joining a further channel aligned north/south. The direction of flow is unknown but they are c2m above normal water level of the river. Function and date unknown.

NGR SJ3875346476 **COMMUNITY** Bangor Is-y-coed

TYPE UNKNOWN, QUAY. Rank: 2
UNKNOWN, LANDING STAGE. Rank: 1

SUMMARY A sandstone structure, approximately 5m long by 0.50m wide. Possibly a quay.

DESCRIPTION A sandstone structure, approximately 5m long by 0.50m wide. All stone blocks seem heavily worn. There is no apparent bonding material. Possibly an old quayside for shallow draught boats. The field in which the site is located is named 'Hunter's Over' on the tithe apportionment of 1840. This is possibly derived from OE 'ōfer' meaning, in this context, a 'river bank'. 'ōfer' has been argued to sometimes denote a place along a river where landing is suitable (Baker & Brookes, 2013, 178-179).

PRN 123891 NAME Bangor Is-y-Coed, River Dee, burnt feature

NGR SJ387454 COMMUNITY Sesswick

TYPE ROMAN, OCCUPATION SITE. Rank: 1

SUMMARY

DESCRIPTION A burnt feature exposed in the river bank down river from Bangor on Dee Bridge. In this one section of river bank (noticed summer 2012), down river from the old stone bridge, there is a burnt feature in the bank. Some 1800mm from the top of the present path above. The feature is about 4000mm wide. The deposits also contain a lot of interwoven shapes of charred wood and I have recovered numerous animal bones from them. I asked a friend of mine who is employed as an archaeologist, to come and visit the site. His findings were that the deposits were the remains of a bridge or wharf and that it is very 'early' (pre-dating the old stone bridge). There are also remains of Roman pottery in the deposit. [The archaeologist] was satisfied that all the timbers appear to have been worked. It appears that the bridge has been burnt at some time and the whole top layer has been sealed by a dumped layer of earth and stones. (Dafydd Morgan pers. comm., 2013)

PRN 72336 **NAME** Pickhill Halt

NGR SJ38644682 **COMMUNITY** Sesswick

TYPE MODERN, RAILWAY STATION. Rank: 1

SUMMARY

DESCRIPTION Pickhill Halt - a stop on the Wrexham & Ellesmere railway. It consisted of a basic wooden plank platform, a tiny creosoted shelter with miniscule canopy and a name board lit (when vandals hadn't smashed or stolen it) by a single oil lamp. It was opened on the 30th May 1938 and built to serve the nearby 'Chocolate Works' (Pratt, D, 1999, 114). No access possible (Dairy Crest Factory premises in the way). WO 2003

CONDITION Condition: Unknown Description: - Related event: - Date of entry: 2000-03-14 00:00:00

PRN 19364 **NAME** Sesswick boatbuilding site (NPA)

NGR SJ3875545810 **COMMUNITY** Bangor Is-y-coed

TYPE POST MEDIEVAL, BOAT YARD. Rank: 1

SUMMARY Possible 18th century boatbuilding site.

DESCRIPTION Probably the site of Duke of Bridgewater's boatbuilding site dated to mid 18th century (CCC 1994). Location revised based upon research conducted in 2019 which determined the site to be located in Sesswick, one of Bangor's five townships. Rather than lying on the Bangor, Flintshire, side of the Dee, the site was likely situated across the river, on its western bank, in Denbighshire (Sillitoe, 2019).

CONDITION Condition: Unknown Description: - Related event: - Date of entry: 1994-12-08 00:00:00
Condition: NOT KNOWN Description: - Related event: - Date of entry: 2020-03-05 00:00:00

Please note that the sites listed above are only the sites of which we are aware at the current time and there may be others that have yet to be discovered.

While the Regional Historic Environment Record contains information on all of the following, we do not hold the definitive data for Listed Buildings, Scheduled Ancient Monuments, Registered Parks and Gardens or Registered Historic Landscapes, and it is recommended that you contact Cadw to ensure you have the most up to date data for these monuments - particularly if you require digital polygons showing the full extents of Registered or Scheduled areas. Similarly, there may also be additional sites in the area in the National Monuments Record of Wales, held by the Royal Commission on the Ancient and Historical Monuments of Wales, and again you are advised to contact them directly to obtain such information.

If your enquiry relates to a commercial development, and if you haven't already done so, please contact Mr Mark Walters (markwalters@cpat.org.uk), the Development Control Archaeologist for Clwyd and Powys who will provide further advice regarding best practice in mitigating against damage to any archaeological or historical remains which might exist within the area of the proposed works.

Enquirers are required to provide a copy (paper or digital) of any document or published report that makes use of information obtained from the HER for incorporation into the record.

Enquirers are required to include the following acknowledgement in any document or published report that makes use of information obtained from the HER: - *Information obtained from the Regional Historic Environment Record curated by the Clwyd-Powys Archaeological Trust and the HER Enquiry Number.*

PRN 129654 NAME Farms and Farming. Scheduling Enhancement Programme 2012-13

NGR SO1038896634 **COMMUNITY** Tregynon

TYPE ASSESSMENT PROJECT YEAR 2012-13

ORGANISATION person Clwyd-Powys Archaeological Trust Silvester, R J & Hankinson, R

SUMMARY

DESCRIPTION A Scheduling Enhancement Project looking at medieval and early post-medieval farms and farming in the Clwyd-Powys region. Desk based assessment (PRN129655) was followed by field survey (PRN129656). Using the results of this work, recommendations were made to Cadw for new designations and revision of existing ones (Silvester & Hankinson, 2013)

PRN 130972 NAME First World War Commemoration project, Scoping Study 2013

NGR SJ0000 COMMUNITY Dwyriw

TYPE DESK BASED ASSESSMENT YEAR 2013

ORGANISATION person Clwyd-Powys Archaeological Trust Spencer, J

SUMMARY

DESCRIPTION Scoping study (desk based assessment) forming the first part of the Cadw-funded First World War Commemoration project (PRN130971). The aim of the scoping study was to identify the physical traces of the First

World War period in mid and north-east Wales (eastern Conwy, Denbighshire, Flintshire, Wrexham and Powys) (Spencer, J, 2013).

ORGANISATION person Clwyd-Powys Archaeological Trust Silvester, R J, Hankinson, R, Owen, W and Jones, N

SUMMARY

DESCRIPTION Scoping study carried out by Clwyd-Powys Archaeological Trust in 2010. A Scheduling Enhancement Project looking at the medieval and early post-medieval monastic and ecclesiastical sites in the Clwyd-Powys region. Desk based assessment (PRN123707) was followed by targetted site visits. Using the results of this work, recommendations were made to Cadw for new designations and revision of existing ones (Silvester, R J et al 2011).

NGR SJ36914944 COMMUNITY Sesswick

TYPE ASSESSMENT PROJECT YEAR 2003-4

ORGANISATION person Clwyd-Powys Archaeological Trust

SUMMARY

DESCRIPTION Assessment of route options for access roads for Wrexham Industrial Estate. A first stage of assessment (PRN106555) was followed by a second stage concentrating on a reduced number of route options (PRN110508) which in turn was followed by an examination of the archaeological implications of one further option for the northern route (PRN118084) (Spencer, J, 2010).

NGR SJ36914944 COMMUNITY Sesswick

TYPE ASSESSMENT PROJECT YEAR 2004

ORGANISATION person Clwyd-Powys Archaeological Trust Silvester, R J

SUMMARY

DESCRIPTION Second stage of assessment of reduced number of route options for access roads for Wrexham Industrial Estate. Involved re-examination of Clwyd-Powys HER, examination of further air-photos and a field walkover survey. Six routes were assessed and the potential impacts on previously known and newly recognised archaeological sites and areas along each route were defined. Mitigation strategies and recommendations for further work on the archaeology were made. A significant number of sites of archaeological interest were identified, including numerous medieval and post-medieval landscape features such as marl pits, hollow ways and areas of ridge and furrow. The sites of several crashes of aircraft associated with the nearby RAF airfield at Borras were also recorded (Silvester, R J, 2004).

Archaeological data, from the Regional Historic Environment Record, supplied by The Clwyd-Powys Archaeological Trust in partnership with Local Authorities, Cadw and the partners of ENDEX CPAT, 2014.

Please note that the sites listed above are only the sites of which we are aware at the current time and there may be others that have yet to be discovered or recorded.

While the Regional Historic Environment Record contains information on all of the following, we do not hold the definitive data set for Listed Buildings, Scheduled Ancient Monuments, Registered Parks and Gardens or Registered Historic Landscapes, and it is recommended that you contact Cadw to ensure you have the most up to date data for these monuments - particularly if you require digital polygons showing the full extents of Registered or Scheduled areas. Similarly, there may also be additional sites in the area in the National Monuments Record of Wales, held by the Royal Commission on the Ancient and Historical Monuments of Wales, and again you are advised to contact them directly to obtain such information.

If your enquiry relates to a commercial development, and if you haven't already done so, please contact Mr Mark Walters (markwalters@cpat.org.uk), the Development Control Archaeologist for Clwyd and Powys who will provide further advice regarding best practice in mitigating against damage to any archaeological or historical remains which might exist within the area of the proposed works.

Enquirers are required to provide a copy (paper or digital) of any document or published report that makes use of information obtained from the HER for incorporation into the record.

Enquirers are required to include the following acknowledgement in any document or published report that makes use of information obtained from the HER: - *Information obtained from the Regional Historic Environment Record curated by the Clwyd-Powys Archaeological Trust and the HER Enquiry Number.*

APPENDIX 4

REPORT LIMITATIONS

LIMITATIONS

This contract was completed by Earth Environmental & Geotechnical Ltd on the basis of a defined programme and scope of works and terms and conditions agreed with the client. This report was compiled with all reasonable skill, and care, bearing in mind the project objectives, the agreed scope of works, the prevailing site conditions, the budget and staff resources allocated to the project.

Other than that expressly contained in the above paragraph, Earth Environmental & Geotechnical Ltd provides no other representation or warranty whether express or implied, is made in relation to the services. Unless otherwise agreed this report has been prepared exclusively for the use and reliance of the client in accordance with generally accepted consulting practices and for the intended purposes as stated in the agreement under which this work was completed. This report may not be relied upon, or transferred to, by any other party without the written agreement of a Director of Earth Environmental & Geotechnical Ltd.

If a third party relies on this report, it does so wholly at its own and sole risk and Earth Environmental & Geotechnical Ltd disclaims any liability to such parties.

It is Earth Environmental & Geotechnical Ltd understanding that this report is to be used for the purpose described in the introduction to the report. That purpose was an important factor in determining the scope and level of the services. Should the purpose for which the report is used, or the proposed use of the site change, this report will no longer be valid and any further use of, or reliance upon the report in those circumstances by the client without Earth Environmental & Geotechnical Ltd review and advice shall be at the client's sole and own risk.

The report was written in 2020 and should be read in light of any subsequent changes in legislation, statutory requirements and industry best practices. Ground conditions can also change over time and further investigations or assessment should be made if there is any significant delay in acting on the findings of this report. The passage of time may result in changes in site conditions, regulatory or other legal provisions, technology or economic conditions which could render the report inaccurate or unreliable. The information and conclusions contained in this report should not be relied upon in the future without the written advice of Earth Environmental & Geotechnical Ltd. In the absence of such written advice of Earth Environmental & Geotechnical Ltd, reliance on the report in the future shall be at the client's own and sole risk. Should Earth Environmental & Geotechnical Ltd be requested to review the report in the future, Earth Environmental & Geotechnical Ltd shall be entitled to additional payment at the then existing rate or such other terms as may be agreed between Earth Environmental & Geotechnical Ltd and the client.

The observations and conclusions described in this report are based solely upon the services that were provided pursuant to the agreement between the client and Earth Environmental & Geotechnical Ltd. Earth Environmental & Geotechnical Ltd has not performed any observations, investigations, studies or testing not specifically set out or mentioned within this report.

Earth Environmental & Geotechnical Ltd is not liable for the existence of any condition, the discovery of which would require performance of services not otherwise contained in the services. For the avoidance of doubt, unless otherwise expressly referred to in the introduction to this report, Earth Environmental & Geotechnical Ltd did not seek to evaluate the presence on or off the site of electromagnetic fields, lead paint, radon gas or other radioactive materials.

The services are based upon Earth Environmental & Geotechnical Ltd observations of existing physical conditions at the site gained from a walkover survey of the site together with Earth Environmental & Geotechnical Ltd interpretation of information including documentation, obtained from third parties and from the client on the history and usage of the site. The findings and recommendations contained in this report are based in part upon information provided by third parties, and whilst Earth Environmental & Geotechnical Ltd have no reason to doubt the accuracy and that it has been provided in full from those it was requested from, the items relied on have not been verified.

No responsibility can be accepted for errors within third party items presented in this report. Further Earth Environmental & Geotechnical Ltd was not authorised and did not attempt to independently verify the accuracy or completeness of information, documentation or materials received from the client or third parties, including laboratories and information services, during the performance of the services. Earth Environmental & Geotechnical Ltd is not liable for any inaccurate information, misrepresentation of data or conclusions, the discovery of which inaccuracies required the doing of any act including the gathering of any information which was not reasonably available to Earth Environmental & Geotechnical Ltd and including the doing of any independent investigation of the information provided to Earth Environmental & Geotechnical Ltd save as otherwise provided in the terms of the contract between the client and Earth Environmental & Geotechnical Ltd.

Where field investigations have been carried out these have been restricted to a level of detail required to achieve the stated objectives of the work. Ground conditions can also be variable and as investigation excavations only allow examination of the ground at discrete locations. The potential exists for ground conditions to be encountered which are different to those considered in this report. The extent of the limited area depends on the soil and groundwater conditions, together with the position of any current structures and underground facilities and natural and other activities on site. In addition, chemical analysis was carried out for a limited number of parameters [as stipulated in the contract between the client and Earth Environmental & Geotechnical Ltd] based on an understanding of the available operational and historical information, and it should not be inferred that other chemical species are not present.

The groundwater conditions entered on the exploratory hole records are those observed at the time of investigation. The normal speed of investigation usually does not permit the recording of an equilibrium water level for any one water strike. Moreover, groundwater levels are subject to seasonal variation or changes in local drainage conditions and higher groundwater levels may occur at other times of the year than were recorded during this investigation.

Any site drawing(s) provided in this report is (are) not meant to be an accurate base plan, but is (are) used to present the general relative locations of features on, and surrounding, the site.
