Hi Susan,

Thank you for consulting us on the above planning application. I have a couple of queries in relation to surface water. Firstly, has the option of soakaways been explored for discharging all of or part of the site's surface water? Has a survey been done to confirm an historic connection of surface water to the public sewer. Lastly, what is the maximum flow that the proposed orifice plate will discharge surface water at in l/s?

If you can pass these queries onto the applicant that'd be much appreciated, I'm also happy for them to contact me directly using this email address.

Best regards,

Jake MacMillan
