I refer to your consultation / email dated 17/02/2023 in respect of the above.

I understand the applicant has advised that there will be very few daily vehicle movements through the proposed access for the lagoon. The lagoon will only be filled once or twice in a winter and emptied one or twice in the summer. Filling will be carried out via an existing pipe and pump from the Holebrook side and emptying will be with an umbilical cord, so movements in and out of the access will be very infrequent.

On this basis, the proposed development is unlikely to result in any significant impact on the adjoining highway. I would therefore raise no objections on highway grounds.

Supplementary Notes

The applicant's attention should be drawn to item nos. 1, 2, 3, 4 & 5 of the supplementary notes.

Note to Applicant:

Public Footpath No.8 - Hanmer passes through the development site and should not be interfered with. I would strongly recommend that the applicant liaise with our Public Rights of Way Section to discuss the proposed development. Please contact Mr. Sean Hanratty on Tel: 01978 729761.
