WELSH GOVERNMENT - 2

05 SEP 2023

Dear Sir/Madam.

Again I'm writing on behalf of my mother who lives at the above address and has lived there happily until the recent letter she received dated 16/8/2023 regarding the appeal for a 17m high telecommunications pole and cabinets.

Mum feels very strongly that it is too close to her flat. I have enclosed some photos from her bedroom window and lounge window (sorry they are not the best quality) But hopefully this will show you how close in proximity the pole will be to her flat.

She is concerned about the noise from the cabinets which are very close to her bedroom. She only has 2 rooms in her flat and her outlook will be looking at the 17 meter Pole.

I'd also like to add that you have said we can write with our views and we have f

the start date which is 9/8/23 but the letter from the council to my mum was dated 16/8/23, so that gave us a week less to gather more objections regarding this issue, which is very unfair.

This situation is causing stress and anxiety to my mum.

She is hoping you will consider her and her neighbours and reconsider the planning of the above.

Many Thanks,

Louise Lewis
