

E20 FORMWORK FOR IN-SITU CONCRETE

195 VENTILATED SUB-STRUCTURE FORMWORK.

Ventform

A passive gas venting system consisting of two distinct flame-retardant designs, moulded and supplied in a range of density and depth.

Ventform is compatible with all types of perimeter vents and provides the ideal sub-strata for the application of gas membranes.

Ventform 80 & 100 is designed for use under domestic properties, flats, smaller commercial building and ground bearing applications.

Panel size: 1200 x 1200mm.

Ventform has been fully tested and certified by BRE and endorsed by the NHBC.

Consult Cordek Ltd technical literature for details. Cordek Ltd can also provide a design and specification service and it is recommended that they are consulted early in the design process.

Manufacturer: Cordek Ltd . Spring Copse Business Park, Sinfold, West Sussex. RH13 0SZ. Tel: 01403 799600 Fax: 01403 791718. Email sales@cordek.com Web: <http://www.nbsplus.co.uk/process.asp?cordek>

Product reference: Ventform Type 80/20.

Thickness overall: 80mm. Leg depth: 40mm.

Panel size: 1200 x 1200mm.

Other requirements: Density 20kg/m² - capacity 20 kN/m²
