3. No facing or roofing materials shall be used other than those detailed on the application form and within the approved application documentation.
 4. The vehicular access hereby approved shall be a minimum width of 3.2 metres.
 5. No private surface water run off shall be permitted to flow from the development site onto the adjoining highway. An Aco drain or similar shall be provided across the approved access to intercept any such run off prior to first use of the development.
 6. This permission shall operate only to allow development to be carried out in strict accordance with the approved drawings and the application documentation. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 1995, no further development shall take place within the site (other than the painting of the buildings).
 7. No works shall commence until an appropriate photographic survey (equivalent to an Historic England Level 1 Photographic Survey - Understanding Historic Buildings, 2016, 5.5, p.27) of the existing building/s has been carried out by an archaeological contractor, in accordance with details to be submitted to, and approved in writing by, the Local Planning Authority. The resulting digital photographs shall be forwarded on appropriate digital media to the Local Planning Authority and the Development Control Archaeologist (Clwyd-Powys Archaeological Trust, Coed y Dinas, Welshpool, Powys, SY21 8RP. Email: mark.walters@cpat.org.uk Tel: 01938 553670/552045). After approval by the Local Planning Authority, a copy of the photographs should also be sent to the Historic Environment Record Officer, Clwyd Powys Archaeological Trust for inclusion in the regional Historic Environment Record and an archive copy should be lodged with the National Monuments Record, RCAHMW.

Reason(s)

1. To comply with Section 91(3) of the Town and Country Planning Act, 1990.
2. To comply with section 71ZA (2) of the Town and Country Planning Act 1990.
3. To ensure a satisfactory standard of appearance of the development in the interests of the visual amenities of the area in accordance with Policies GDP1 and PS2 of the Wrexham Unitary Development Plan.
4. To ensure the formation of a safe and satisfactory access in accordance with Policy GDP1 of the Wrexham Unitary Development Plan.
5. In the interests of highway safety in accordance with Policy GDP1 of the Wrexham Unitary Development Plan.
6. Due to the restricted application site and its relationship with adjoining properties it is considered important to ensure that no additional development as described in the condition is carried out without the permission of the Local Planning Authority in accordance with Policies GDP1 and PS2 of the Wrexham Unitary Development Plan.
7. To secure a full photographic record of the original building(s) prior to alteration, conversion or demolition in accordance with Policy GDP1 of the Wrexham Unitary Development Plan.

Note(s) to applicant

Burning of waste generated from construction activities is not considered to be an appropriate method of disposal and action may be taken as follows:

- Under the Environmental Protection Act 1990 anyone found disposing of construction site waste by burning is likely to be in breach of their duty of care with regard to waste disposal;
- Under the same Act an abatement notice may be served where smoke is judged to be causing a nuisance to neighbouring properties. Failure to comply with the requirements of the notice can result in prosecution;
- Under the Clean Air Act 1993 it is an offence for a commercial activity to burn anything that gives rise to dark smoke.

To prevent offences under the above named Acts there should be no bonfires on the site, to include the prohibition of the burning of cleared vegetation. The applicant should contact the Council's Environmental Health & Housing Standards Team on 01978 292040 for further advice and information.

The Applicant is advised that under the Environmental Protection Act 1990, dust from construction and/or demolition activities can be judged to be causing a statutory nuisance to neighbouring properties. A legal notice can be served requiring that any dust nuisance is abated and failure to comply with the requirements of the notice can result in prosecution. The applicant should contact the Council's Environmental Health & Housing Standards Team on 01978 292040 for further advice and information.

All works relating to this development which are audible beyond the site boundary should be carried out only between 7.30 and 18.00 hrs Monday to Friday, and 08.00 to 14.00 hrs on a Saturday, and at no time on a Sunday or a Bank Holiday. Outside these times, any works which are audible beyond the site boundary have the potential to cause unreasonable disturbance to neighbouring premises.

The applicant is advised that the Council has the option to control construction noise by serving a Control of Pollution Act 1974, Section 60, Notice where deemed necessary, and failure to comply with such a Notice can result in prosecution.

The applicant is further advised that any complaints received relating to noise of any type from the development may also be investigated using the Council's Standardised Procedure for Dealing with Noise Nuisance Complaints. This is done under the Statutory Nuisance provisions provided within the Environmental Protection Act 1990, and legal action may be taken where appropriate.

The applicant must adhere to the times given above wherever possible. If however there are urgent or unavoidable circumstances requiring works outside of the specified times, permission to proceed may be sought by contacting the Council's Environmental Health and Housing Standards at: healthandhousing@wrexham.gov.uk or on 01978 292040. Please use the same contact details for any other enquiries regarding construction / demolition site noise.

The developer/applicant should ensure that the existing septic tank has sufficient capacity to accommodate any increase in flows from the proposed development. The Applicant should note, it is a legal requirement to apply for an environmental permit or register an exemption with us. Septic tanks and small sewage treatment works may be registered as exempt from the requirement to obtain an environmental permit if certain criteria are met.

Please note, should a permit be required, further information may be required as part of that application and the Applicant is therefore advised to hold pre-application discussions with our Permitting Team on 0300 065 3000, at the earliest opportunity, to try to ensure that there is no conflict between any planning permission granted and the permit requirements. If the Applicant already holds an exemption / permit, they should check whether the proposed increase in flows would require a further application to be made for a new / varied permit. It is important to note that a grant of planning permission does not guarantee that a permit will be granted, should a proposal be deemed to be unacceptable (either because of environmental risk or because upon further investigation, a connection to mains sewer was feasible). The Applicant should ensure that they have all the required permissions, consents, permits and any other approvals in place prior to commencement of works on the site.

More information, including a step by step guide to registering and the relevant application forms are available on our website. Where private sewage treatment/disposal facilities are utilised, they must be installed and maintained in accordance with British Standard 6297 and Approved Document H of the Building Regulations. We also refer the Applicant to Guidance for Pollution Prevention 4 on the NetRegs website, which provides further information.
