

PLA0076440

LEGEND(Representative of most common features)

Notes:

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Dider Cyber Cyllyngedig ('The Company') gives this information as to the position of its underground apparatus by way of general guidance only and does not accept the strict underpinning that it is based on the best information available and no warranty is made as to the correctness or reliability of the information. The Company does not make any claim as to the correctness or reliability of the information in the event of excavations or other works being made in the vicinity of the company's apparatus. The onus of locating apparatus before carrying out any excavations rests entirely on you. The information which is supplied to you should be used in accordance with statutory requirements of sections 150 and 151 of the Water Industry Act 1991. It should be noted that the Company does not accept any liability whatsoever with regard to the generality of the foregoing. It should be noted that the records that are available to the Company may not disclose the existence of a water main, service pipe, sewer, lateral drain or disposal main and any associated apparatus located before 1 September 1989, or any of the particulars of the foregoing that position underground may not be accurate. However, they can be used for the purpose of identifying the location of the apparatus. This information is supplied without liability to the Department of the New Roads and Street Works Act 1991, or the Company's right to be compensated for any damage to its apparatus.
