NB: Sewer symbol colour indicates the type.

RED	- Combined		Private Sewer Transfer
GREEN	- Surface Water		Latent Drain
BROWN	- Foul		Inspection Chamber

Notes:

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Dider Cyber Cyllyngedig ('The Company') gives this information as to the position of its underground apparatus by way of general guidance only and does not accept the strict understanding that it is based on the best information available and no warranty is made as to the correctness or reliability of the information. No excavation or other work should be made in the vicinity of the company's apparatus without the prior approval of the company. The removal of the apparatus being carried out any excavations must be entirely on your. The information which is supplied to the company, should be done so in accordance with statutory requirements of sections 150 and 151 of the Water Industry Act 1991. The company is not responsible for any damage to the apparatus or for any loss of service or interruption to the continuity of the supply of water. It should be noted that the records that are available to the Company may not disclose the existence of a water main, service pipe, sewer, lateral drain or disposal main and any associated apparatus located before 1 September 1989, or any of the particular details of the existing that position underground may not be accurate. However, it can be used for the purpose of identifying the location of the apparatus. The information is supplied without liability to the company of the New Roads and Street Works Act 1991, or the company's right to be compensated for any damage to its apparatus.

Service pipes are not generally shown but their presence should be anticipated.
