Re: S.78 Appeal, Land at Corner of Percy
Rd + Stockwell Grove, Wrexham - 17m
High SG Mast + Equipment Cabinets.

I wish to make the following representations:-
the mast is too high at 17m high, it will
be visually intrusive and will be
overbearing. Traffic at the junction
coming out of Stockwell Grove, turning
right into Percy Rd will be restricted
in their vision by the placement of the
Equipment Cabinets. The mast is very
close to the flats and also close to
the road. If an accident occurred
at the junction and the mast was hit
by a vehicle the mast could fall onto
the flats. The mast itself is
inappropriate in a residential area
so close to the flats.

Please notify me of the decision by
sending me a copy of your decision
letter.

Yours faithfully,
