| RED | - Combined | | Lateral Drain |
| GREEN | - Surface Water | | Inspection Chamber |
| BROWN | - Foul | | |
| Purple | - Former S24 sewers (for indicative purposes only) | | |

Notes:

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Dŵr Cymru Cylindedig (the Company) gives this information as to the position of its underground apparatus by way of general guidance only and on the understanding that it is based on the best information available and is not warranted as to its correctness in the event of excavations or other works made in the vicinity of the Company's apparatus. The error of locating apparatus before carrying out any excavations is entirely on you. The information which is supplied by the Company is given as in accordance with statutory requirements of sections 193 and 199 of the Water Industry Act 1991 which is based upon the best information available and, in particular, but without prejudice to the generality of the foregoing, it should be noted that the records that are available to the Company may not reflect the whereabouts of water mains, surface water drains, lateral drains or other apparatus and any excavation should be made with care and, if necessary, the professional third party should be consulted for the provision of the New Roads and Street Works Act 1991 and the Company's Agents for compensation for any damage to be anticipated.

**EXACT LOCATIONS OF ALL APPARATUS
TO BE DETERMINED ON SITE.**
