

Dear Sharon,

Thank you for your email keeping me up to date.

The only additional comments to my original objections would be to reiterate the same as follows:-

Detrimental Visual Impact of development (bungalows would have been better as one story and lower roof line).

Noise and smell from additional pollution

Loss of privacy as development would overlook Chapel House

Overshadowing/loss of light

Public services inadequate drainage due to high water table. Highway safety as single track lane with no footpaths

Road Capacity inadequate means of access, visibility, vehicle parking and unsafe for cyclist, horse riders and pedestrians

Can you please let me have a copy of the appeal decision letter.

Many thanks

Mrs E Trimmings-Bottrell
