Coseyfire Petit 5kw - Ivory Enamel, DEFRA APPROVED

Brand: Coseyfire

Product Code: Coseyfire Petit Cream

About the Stove

This advanced unit has been designed by our brand Coseyfire and incorporates an advanced pre-heated secondary burn system ensuring a clean and efficient burn. This stove is wonderfully hand constructed and blends traditional styling and modern efficiency. The Petit is made from thick mineral cast iron, and is designed to withstand the test of time. Clean lines make it suitable for a wide range of decor, styles and tastes. The Petit is a multi-fuel stove that will deliver a reliable source of heat with an accurate degree of control. You will find this stove not only a joy to look at, but a joy to use.

Clean Burn System

The Coseyfire has an advanced secondary/tertiary clean burn system. Air is fed in from the rear and fed over the fire and glass to help keep it clean and clear. The secondary burn feature is a real advantage, and means you're getting every drop of heat from your fuel and saving you filling the stove up as often, saving you money and time on fuel.

Defra Approved Wood Burning Stove

This Petit has been rigorously tested and approved to burn wood in a smoke controlled zone. [Defra approved](#) stoves with 5" flue outlets, like this one, can also be installed with a 5" liner.

Guarantee

We offer a 12 Month Guarantee.

(This covers the stove's body and not the internal perishable parts.) Guarantee is activated when the stove is invoiced. 6 digit number on the top of each invoice is the warranty number. Stove must be installed by a HETAS engineer or signed off by building control.

Enamel Finish (Must Read)

The Ivory enamel finish on the stove looks stunning, and you can be assured that it will be the talking point of a room. However, the enamel can chip easily and when your stove arrives you may find a few very small chips where it has been put together. This small issue is more evident on the cream version because the cast iron is black underneath the enamel. If the chips are large and caused in transit we will arrange collection and a new delivery.

Overnight Burn

The Coseyfire Petit Defra approved cream enamel wood burning stove has an excellent overnight burn system. The stove's airtight door gaskets and manually controlled air flow controls allow you to close the stove right down overnight and wake up to a warm house in the morning. All you will need to do is reopen the air controls, add a little coal or wood and watch the fire roar again.

Stove Features

Heat Output : 5Kw

Pre-heated airwash system : Yes

Outlet : 5" (125mm) top and rear

Stove Construction

The stove is made from thick Australian cast iron allowing the stove to radiate heat for much longer than stoves with thinner castings. The stove is also made entirely from mineral cast iron and not re-melted scrap like many others. This gives the stove a much less chance of cracking in the future.

Why Are We So Cheap?

This is a common question we get asked and understand why people will sometimes wonder how we can sell enamel wood burning stoves so much more cheaply than other companies. We design a large amount of our products and they come direct from our factory to us. This completely cuts out any middle men. We can stock over 2500 wood burning stoves at any one time and ship direct to the end user with no showrooms. We always suggest prospective buyers take a look at our glowing feedback that currently has over 7,000 positive comments on our stoves and stove products.

albert	23/03/2016
i bought the cosy fire 5kw stove and i am so pleased with it. the stove has been burning since Oct 15 to date march 16 using smokeless fuel the cheapest ! It burns overnight easily - the stove burns 25kg of fuel over 3 days. ★ ★ ★ ★ ★	

Trevor Towler	08/10/2015
Having had this stove installed this week I am very impressed with it's performance. It looks stunning and produces more than enough heat for our room. i\'m looking forward to seeing it\'s performance in the winter now. Very recommended ★ ★ ★ ★ ★	

 All stoves and accessories delivered in two to three days.
